Vaishnavi Habare **Mobile no:** 8788775982
Email: vaishuhabare11@gmail.com

Career Objective:

- 3.4+ years of expertise in IT for providing requirement interpretations, resolution & strategic guidance involving identification.
- Good experience in Investment Banking Manual Testing, Functional Testing, Automation Testing, Core JAVA concepts, Selenium WebDriver with JAVA, JavaScript, API Testing and Web-service testing using POSTMAN, Database Testing.
- A technically adapt and diligent professional possessing excellent communication, presentation and learning skills with a sharp analytical mind-set. Proficient in performing under demanding and diverse professional environment.

SKILLS SUMMERY:

- Proficient as QA Engineer with Good Knowledge of Software Development Life Cycle (**SDLC**) and Software Testing Life Cycle (**STLC**).
- Experience in Software Testing and good understanding in **Java** and **OOPS** Concept.
- Performed Functional Testing, Non-Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, System Testing, Integration Testing, Compatibility Testing, and Ad-Hoc Testing as per the requirements.
- Using automation testing performed Smoke testing, Sanity testing and Regression Testing.
- Strong knowledge in **Page Object Model** to Automate Test Cases by using **Selenium WebDriver, TestNG and Cucumber Framework.**
- Good knowledge of Java program features with **TestNG Annotations, Listeners, Locators.**
- Proficient in analysis, tracking and reporting of Bugs using Bug Tracking Tool (JIRA).
- Good Experience of **BDD Cucumber** Framework.
- Good understanding of **Git** repository management.
- Knowledge of Handling List **Box, Pop ups and Dropdowns**.
- Worked on basic **SQL** queries to access the data from the database tables.
- Good at detecting Bugs & classifying the bugs based on Severity and Priority.
- Actively participated in Project status meetings with team members.
- responsible for Test Case Writing, Execution, Bug Tracking and Reporting.
- Good experience in **REST API** testing using **Postman/Rest Assured**.
- Knowledge of Agile Methodology process and defect management tool like **JIRA**.
- Knowledge of preparing Traceability-Matrix.
- Self-motivated, Good Team Player and a quick learner with strong analytical & technical.
- Experience in **Git** for version control.
- Good Experience in **Selenium** with **Java** using WebDriver.
- Good Experience in RANK () ,DENSE_RANK(),ROW_NUMBER() in SQL
- Good experience in using **Sed** and **Grep** command in linux.

TESTING SKILLS - Selenium:

- Strong knowledge of locators and XPath.
- Good knowledge of handling multiple elements.
- Very good knowledge of handling pop-ups and Excel files.
- Expertise in writing automation test scripts (XPath, actions, TestNG).
- Good Knowledge of POM, Page Factory.
- Good knowledge of handling list box and Action class.
- Sound knowledge of Annotations and Assertions.
- Good knowledge of framework like data driven, hybrid driven, keyword-driven framework

TESTING SKILLS - SQL:

- Good understanding of RDBMS concepts like Constraints, Normalization, Tables, etc.
- Excellent knowledge of writing queries.
- Good understanding of SQL concepts like Grouping, subqueries, functions, etc.
- Solid understanding of SQL joins (Inner Joins, Left Joins, Right Joins, and Full Joins).
- Good knowledge of DDL, DML, and DQL
- Good knowledge of clause like where clause, having clause, group by, order by

TESTING SKILLS SUMMARY:

- Automation Tools: Selenium, Postman, REST Assured, Cucumber
- Programming Languages: Java, SQL, JavaScript.
- Operating Systems**: IOS,** DOS, Windows and Linux
- Frameworks & Libraries: REST-assured, TestNG, Cucumber,
- API Testing (Postman, REST-assured) and Git for version control.

EDUCATION:

- Bachelor of Computer Science from Dr. Babasaheb Ambedkar Marathwada University, Aurangabad,
- Graduation Year: Oct- 2021

WORK EXPERIENCE:

- Working as Software Test Engineer From 4th Apr-2022 to till date **ProAzure Software Solutions Pvt. LTD, Pune**

PROJECT DETAILS:

Project #1

Project Name: Market Maven: (Market Maven Online Marketplace)

Domain : E-Commerce

Client name: IKEA, Sweden

Project Description:

Market Maven is an online marketplace that provides a platform for sellers to showcase and sell their products to a global customer base. The platform features a wide range of products from various categories, including electronics, fashion, home and garden, and more.

Market Maven provides a simple and intuitive interface that allows sellers to easily create and manage their online store, upload product listings, and manage orders. Sellers can also customize their storefronts with branding and design elements to create a unique and personalized shopping experience for their customers.

Market Maven also features a customer authentication system, which allows customers to create an account, log in, and manage their orders. Customers can track their order status, view their order history, and manage their account details.

The platform is designed with security in mind, and implements various security measures such as SSL encryption, firewalls, and two-factor authentication to protect customer information and payment details.

In addition, Market Maven features a robust order management system that allows sellers to manage orders, track shipments, and update inventory levels in real-time.

Overall, Market Maven is a comprehensive online marketplace that provides a range of features and functionalities to ensure a seamless and secure shopping experience for customers, while also providing sellers with the tools they need to efficiently manage their online store and reach a global customer base.

Roles and Responsibilities:

➢ Responsible for going through the user stories and creating Test Cases based on the User Stories.

➢ In Agile environment, attended daily stand-up meetings, reviewed user stories.

➢ Peer review of the test cases with QA Lead and testing team mates.

➢ Involved in documenting the Test Plan, Test Cases, Defect reports.

➢ Creating test scripts using Java and Selenium Web driver for the Functional test cases.

➢ Identified, fixed the bugs and prepared all the documentations for future use

➢ Identify and preparing test data for Manual and Automation Testing.

➢ Hands on experience implementing automation using Selenium Web driver, TestNG and Postman/Rest Assured.

➢ Developed and executed SQL queries for testing database integrity and for data analysis.

➢ Locate web elements using XPath expressions, CSS Selectors etc.

➢ Having Good Knowledge in writing BDD scenarios using cucumber.

➢ Involved in the daily scrum call.

Project #2

Domain: Investment Banking
Project Name : ETF System
Client : **State Street Global Advisors, UK**

Project Description:
pioneer and early leader in active quantitative investing, it has developed the investment strategies across the risk/reward spectrum that was the theme of the project. the belief that responsible investing is core to driving better outcomes for our clients over the long-term market-scanning tools, fully customizable charting, fast and reliable trade execution, advanced order management and fully automated strategy trading. It's all the professional-grade firepower you need to take on the markets with confidence. Now you can securely log in from your favorite Mac or PC web browser to check breaking news, place a trade or manage the account.

Roles and Responsibilities:

➢ Responsible for writing test cases for each new sprint stories.

➢ In Agile environment, attended daily stand-up meetings, reviewed user stories.

➢ Analyzed the Business Requirements Document, created the detailed test design for new Functionality.

➢ Involved in Smoke Testing, Functional Testing, end to end Testing, Regression Testing and User Acceptance Testing.

➢ Worked with developers, other testers, and key stakeholders to devise test plans and schedule for each software release.

➢ Used queries to create test data and analyzed the data flow.

➢ Performed Front end and Back-end testing of all the Modules using Manual as well as Automation Testing.

➢ Written and executed SQL queries and Joins, Group By clause to validate the data.

➢ Strong understanding of the software lifecycle.

➢ Followed Agile/Scrum Methodologies for all the project activities.

PROJECT DETAILS:

Date of Birth : 6th Jan-2000
Nationality : Indian
Languages : English, Hindi and Marathi
Address : At Post- Korali, Ta-Nilanga, Dist-Latur-413607

I solemnly declare that all the information furnished in this document is factual and free of errors to the best of my knowledge and belief.

Yours Faithfully,
Vaishnavi
